

2023 - 2024 SPONSORSHIP PACKET

WHO WE ARE

Clemson Formula SAE is a Clemson University student organization that is led and operated by the University's brightest students in engineering, business, and more. Our team members apply what they learn in the classroom by designing and building an open-wheeled formula-style racecar. Students must solve complex problems, face time management challenges, and work together as a complex team. CUFSAE members come from many different backgrounds, but we all share a common passion for motorsports that drives our team forward.

Our mission as an organization is to provide a top tier, hands-on learning experience for all Clemson University students who have a passion for motorsports, cars, and a better education. By building a racecar for competition with other universities, we showcase the ingenuity of Clemson students who are also pursuing an exceptional education that not only encourages us to think critically and solve problems, but also prepares us for the challenges of life and careers ahead.

ACHIEVEMENTS

2008 FSAE California - 13th Place
2009 FSAE Virginia - 7th Place
2009 FSAE California - 16th Place
2012 FSAE Michigan - 20th Place
2013 FSAE Michigan - 14th Place
2014 FSAE Lincoln - 21st Place
2015 FSAE Michigan - 86th Place
2016 FSAE Michigan - 51st Place
2016 Formula South - 1st Place
2017 FSAE Michigan - 85th Place
2017 Formula South - 2nd Place

2018 Pittsburgh Shootout - 3rd Place
2018 Barnesville Match Race - 1st Place
2018 GSKA FSAE Shootout - 1st Place
2019 Formula South - 1st Place
2019 FSAE Michigan - 18th Place
2019 Pittsburgh Shootout - 6th Place
2019 GSKA FSAE Shootout - 3rd Place
2022 Formula South - 1st Place
2022 FSAE Michigan - 36th Place
2022 Pittsburgh Shootout - 6th Place
2023 FSAE Michigan - 39th Place

WHAT WE DO

At CUFSAE, we take pride in the hard work and dedication that goes into building our car and preparing for Formula SAE competitions each year. Our team is comprised of students from many disciplines, from mechanical and computer engineering to packaging science and graphic communications. Students are involved in every part of running a real motorsports team, from designing, manufacturing, and testing the car to finding sponsors, keeping up with social media, and managing finances and other team resources.

A point of pride for our team is the fact that everything on the car is designed, built, and tested by us. Each year, a new car is designed from scratch, which gives team members a chance to apply what they learned in the classroom or explore new concepts entirely. CUFSAE students graduate as well-rounded, dedicated individuals with a great feel for real world limitations, team work skills, and problem solving techniques.

THE CAR

Formula SAE cars are open-wheeled racing machines - similar to full-size Formula cars - built within a specific set of rules that is designed to encourage student creativity while ensuring safety for the participants.

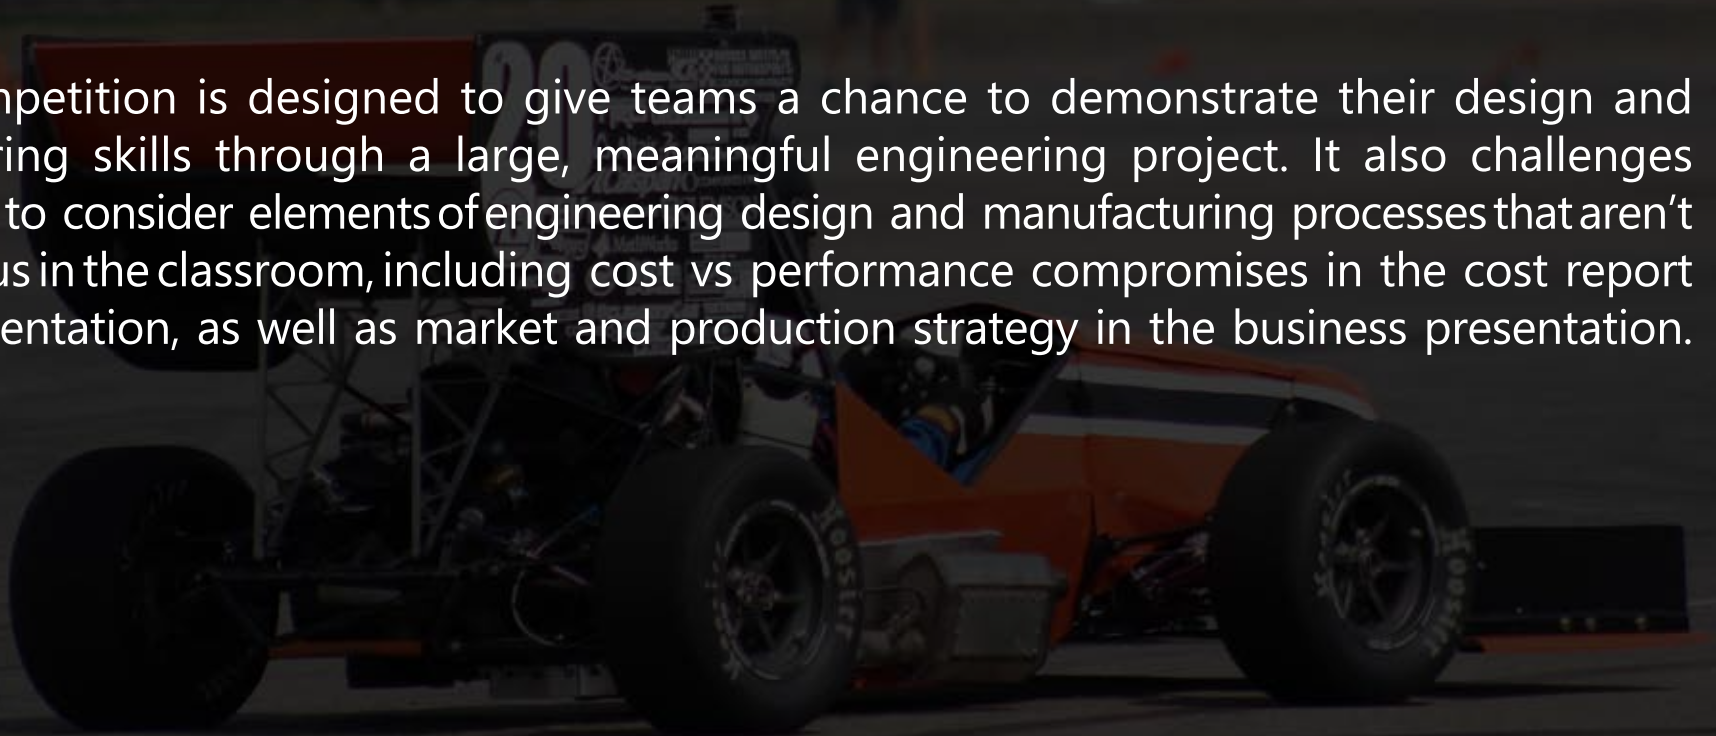

The cars are required to have engines that are less than or equal to 710cc's and adhere to specific size and safety requirements. Beyond that, teams have the freedom to design advanced suspension packages, aerodynamic kits, and many more innovative racing-focused systems.

THE COMPETITION

Formula SAE competitions introduce teams from colleges and universities around the globe to the competitive world of motor racing. 120 teams compete in FSAE competitions held annually at Michigan International Speedway in early May.

Over the course of four days, the cars are judged in a series of static events which include a cost analysis, business presentation, and engineering design presentation, as well as dynamic events that take place after a technical inspection of the car, which include acceleration, skidpad, autocross, and endurance.

The competition is designed to give teams a chance to demonstrate their design and engineering skills through a large, meaningful engineering project. It also challenges students to consider elements of engineering design and manufacturing processes that aren't as obvious in the classroom, including cost vs performance compromises in the cost report and presentation, as well as market and production strategy in the business presentation.

SPONSORSHIP

Without the charitable contributions of our partners, the continued well-being of our team would not be possible. By supporting us right now, sponsors are not only allowing the team to succeed today, but are also investing in the training and education of the best innovators, engineers, and entrepreneurs of tomorrow.

BENEFITS

Partners of CUFSAE receive the following:

- Direct recruiting access to some of the most desirable future employees
- Tax deductible donations (Tax exemption ID 57-6000254)
- Exposure to CUFSAE alumni, family, fans, and other partners
- Logo exposure at Clemson student and athletic events, local automotive competitions, autocross events, and various SAE competitions
- Further benefits listed on the following page

SPONSORSHIP LEVELS

Platinum Sponsor - \$10,000+

Top priority logo size, display on the car
Top priority logo size, display on team shirts

Logo and Link on our website
Social Media Callout

Gold Sponsor - \$5000-\$9999

Large logo decal on racecar and team shirts
Logo and Link on our website

Social Media Callout

Silver Sponsor - \$2500-\$4999

Medium logo decal on racecar and team shirts
Logo and Link on our website

Social Media Callout

Bronze Sponsor- \$1000-\$2499

Small Logo decal on racecar and team shirts
Logo and Link on our website

Social Media Callout

Orange & Purple Sponsor \$250- \$999

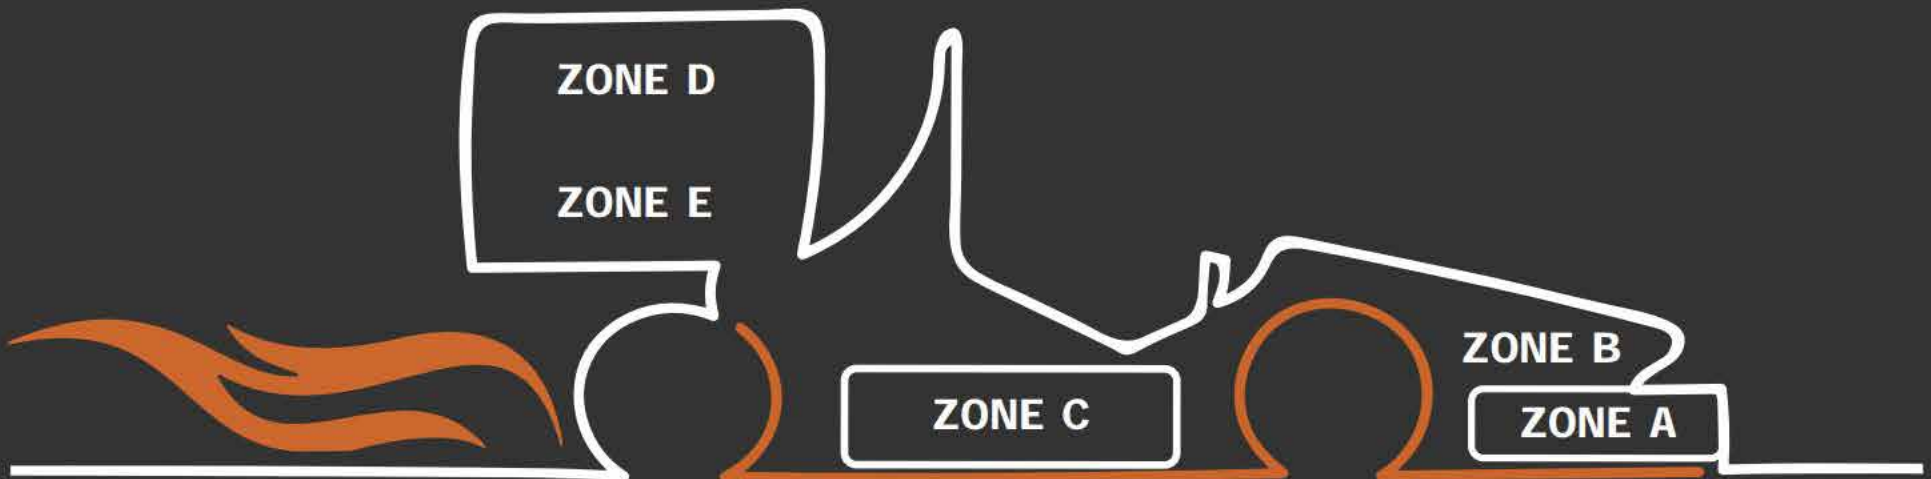

Logo and Link or Mention on our website

*Sponsor level is determined by cash amount or
donation value; all packages are negotiable.*

SPONSORSHIP ZONES

As a way to showcase our partners, we have designated specific zones on the car for each sponsorship level. We feel this is the best way to ensure maximum exposure for each and every partner.

Zones A & B are reserved for Platinum and Gold sponsors. Zones C through E are reserved for Silver, Bronze, and Orange & Purple sponsors.

A THANKS TO OUR SPONSORS

Dear Sponsors,

On behalf of the Clemson Formula SAE team, I want to extend my sincerest gratitude to you for not only investing in the future of our organization, along with the future of our education and the automotive industry. Our team is motivated to enrich the student experience at Clemson University by promoting a creative environment that allows all students to apply what they learn in the classroom to a real-world setting. Your loyalty to our team is the reason we have experienced so much success allowing us to make such an incredible car that is a showcase of the hard work, dedication, and engineering our team has devoted to make everything possible. Through your continued support, your company is inspiring Clemson students to become outstanding engineers and industry leaders along with meaningful members to the workforce.

Since CUFSAE solely relies on donors and sponsors, establishing and maintaining relationships with your company is of the utmost importance. Sponsorship for our team comes in so many different ways other than monetary donations, including value-in-kind donations, or technical and educational support. We hope that you understand that sponsorship with our team is not just a one-way street; rather a mutually beneficial partnership where we strive to promote your business as well. By aligning your team with ours, we aim to showcase your generous support for education and future industry employees. Once again, thank you for your belief in our team and paving the way for innovation.

Thank you and Go Tigers!

William Wei
