

The Ohio State Formula Buckeyes

2025-2026 Sponsorship Packet

The Sport

Formula SAE (FSAE) is a collegiate design competition that encompasses all aspects of automotive engineering and running a formula racing team: research & design, manufacturing, testing, operations, fundraising/finance, marketing, and team management.

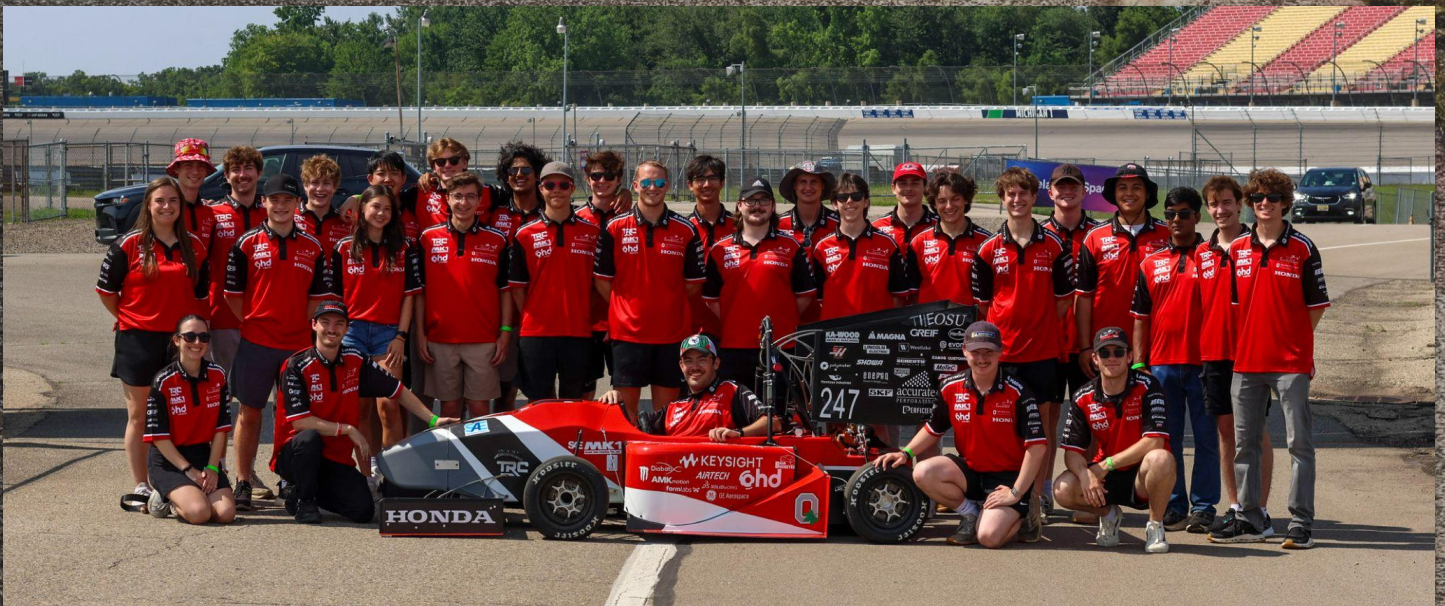

FSAE is comprised of undergraduate and graduate students from universities across the world who compete both in the U.S. and internationally. Competitions span multiple days, with scoring based on performance in various dynamic events, a technical inspection, design and cost review, and a business case presentation.

Number of FSAE teams

- 5 Teams in Ohio
- 150 U.S. Teams
- 600 Teams Globally

Our 2026 Competitions

- FSAE Michigan
- Oakland Grand Prix
- Pittsburgh Shootout

FB-25 at Michigan International Speedway

The Team

The Formula Buckeyes are an ambitious group of students at The Ohio State University who spend countless hours building a competitive Formula SAE car. Our team has been representing Ohio State in FSAE for 36 years, and since then, we have created a vast network of experienced alumni who now work at prestigious engineering firms across the United States.

In 2024, we achieved our best results in team history with 1st place finishes at FSAE Michigan, the Oakland Grand Prix, and the Pittsburgh Shootout. Not only did we win, but we dominated, bringing home a total of nine trophies back to Columbus. In 2025, we transition to a fully electric class competing against the best of the best. With every hurdle raised, from funding to the newly formed high voltage team, it was quite the challenge. Although we did not fully complete the battery pack for this car, we did take it to competition and placed 37th with the success seen in our static events.

80 Members | 20 Leaders | 11 Subteams | 12+ Majors | First Year EV and 37th

Our Mission

Our mission is to provide a meaningful and lasting impact on students of The Ohio State University who are interested in both building a race car and being involved in a fully functioning racing team. In addition, our goal is to achieve impressive results at competition despite the numerous obstacles we face throughout the year.

We're committed to developing the innovators of tomorrow through an array of hands-on projects across our diverse group of subteams. Our members are able to enhance their education beyond the classroom by gaining valuable technical and project management skills, which allow them to excel at companies like yours after graduating.

This season, our objective is to complete and tweak the design from our 2025 car and refine it for the creation of our FB-26 car. Taking the wins and losses with us will help us create a world class car and even better engineers.

THE OHIO STATE UNIVERSITY

2025 – 2026 Calendar

August

Recruitment

Team Kickoff

Design Review

Design

- Implementation of new designs & EV powertrain
- Identify key enhancement areas

November

Design Review

Fundraising Event

Chassis Validation

Manufacturing

- Physical construction of components
- Integration of major subsystems

February

Rolling Car

Finalized Car

Rollout Event

Testing

- Full-system testing at the Transportation Research Center
- Analysis of new designs and iterative improvements

June

FSAE Michigan

Oakland Grand Prix

Pittsburgh Shootout

Competition

- Travel to various collegiate FSAE competitions across North America
- Compete against both U.S. and international teams

THE OHIO STATE UNIVERSITY

Sponsorship Levels

We're very grateful for the generous donations from our sponsors! Your support is what drives us to succeed at competition. We can accept—but are not limited to—donated products, services, facility time, and cash.*

Title: \$15,000+

- Largest logo size on car in prominent location
- Large logo on race day apparel
- *All the benefits of Premier*

Premier: \$5,000+

- Large logo on car
- Company recruiting event
- Small logo on race day apparel
- Social media feature
- Workshop tour
- *All the benefits of Scarlet*

Scarlet: \$2,000+

- Small company logo on car
- Company logo on our website (formulabuckeyes.org)
- Resume packet consisting of experienced upperclassmen
- Social media shoutout on Instagram
- *All the benefits of Gray*

Gray: \$500+

- Team updates highlighting milestones and achievements
- A thank you email from the university with a receipt for tax deductions**
- An invite to our annual rollout event

* Sponsor levels are flexible, and are not strict requirements. We are happy to make accommodations for special donations.

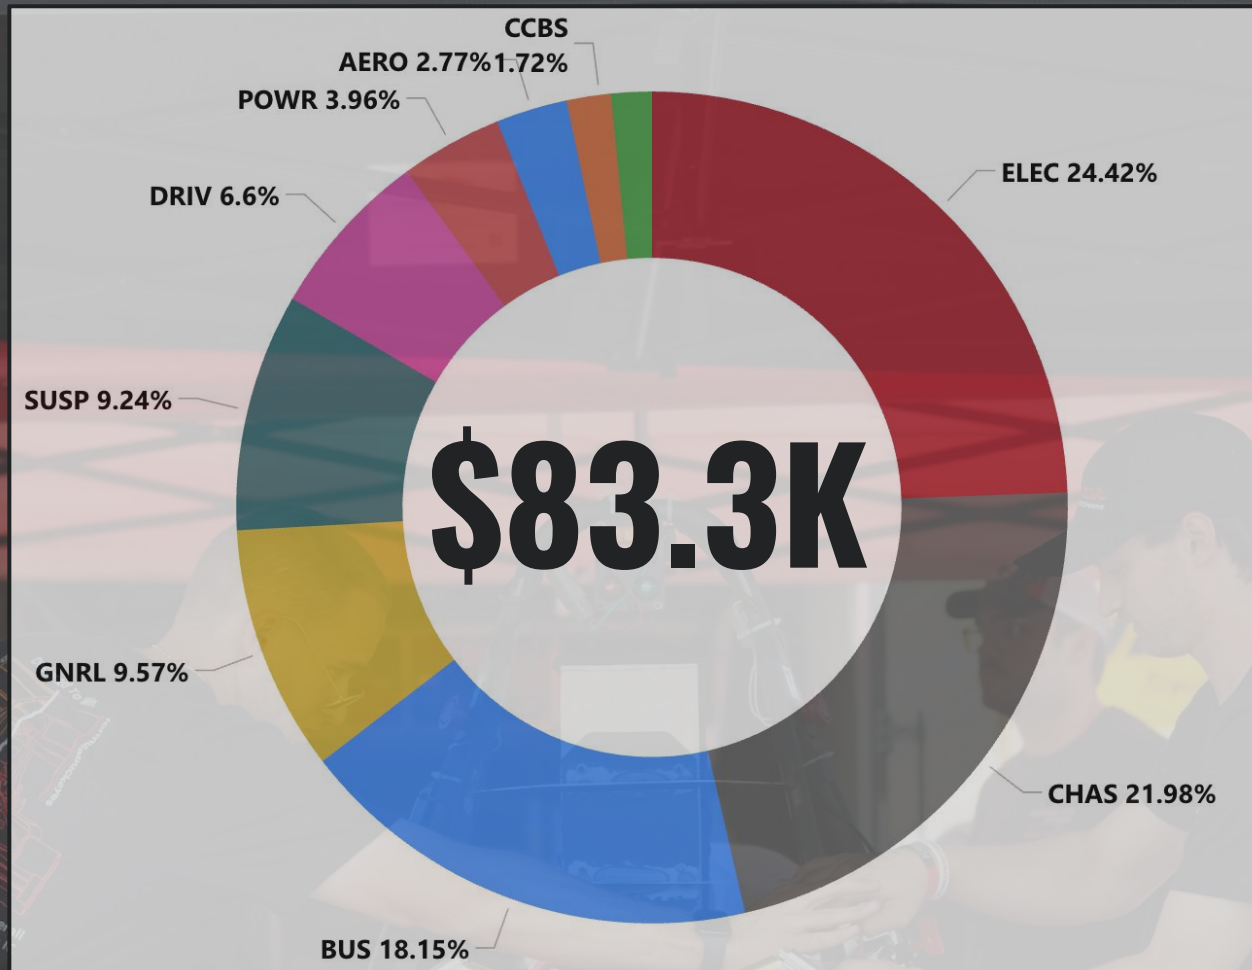

** All donations are 100% tax deductible.
